Thank you for choosing Wiles Chiropractic! We are committed to providing you with the best possible care and we are pleased to discuss our professional fees with you at any time. Your clear understanding of all our policies is important to our professional relationship. The following is a statement or our policies. We require that you read, agree to and sign prior to any treatment:

TO ALL OF OUR NEW PATIENTS

After completing the questionnaire forms, the doctor will have a consultation with you to determine whether or not you can be helped by chiropractic care...

The doctor will perform a thorough examination to determine the extent of your problem. Suggestions will then be made as to whether x-rays will be necessary and what course of therapy to follow...

On your following visit, the doctor will make further suggestions in reference to you treatment plan after he has had opportunity to review you case.

When a patient seeks chiropractic health care and we accept payment for such care, it is essential for both the doctor and patient to be working towards the same objective.

Chiropractic has only one goal. It is important that each patient understand both the objective and the methods that will be used to attain it. This will prevent any confusion or disappointment.

Adjustment: An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments of the spine.

Health: A state of optimal physical, mental and social well being, not merely the absence of disease of infirmity.

Vertebral Subluxation: A misalignment of one or more of the 24 vertebrae in the spinal column which causes alteration of nerve function and interference to the transmission of mental impulses, resulting in a lessening of the body's innate ability to express it maximum health potential.

We do not offer to diagnose or treat any disease or condition other then vertebral subluxation. However, if during the course of a chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnoses or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area.

Regardless of what the disease is called, we do not offer to treat it, nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate the major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxations.

I, ______ have read and fully understand the above statements. All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care of this basis.
